

BAL ASSESSMENTS

Mitten Vinyl Weatherboards can be used in BAL 12.5 and 19 areas.

In these areas they must be fitted over 6mm fibre cement sheet and 400mm above the ground or decks.

This system complies with AS3959 BAL 12.5 or 19 requirements.

Consult the standard for full technical details from time to time.

BAL Assessments can be found at www.bal.net.au

**BAL = Bushfire Attack Level*
